Factbook on Manpower

*Planning Department
Himachal Pradesh
Shimla-2.*

PREFACE

In the present issue of "Fact Book on Manpower", an attempt has been made to revise and update the essential and useful statistical information relating to various aspects of Employment and Manpower Planning in Himachal Pradesh. This book is the eighth in the series of "Fact Book on Manpower" being published by the Manpower and Employment Planning Division of the Planning Department, Government of Himachal Pradesh and contains data upto the year 2004-05. The work relating to this publication is of continuous nature requiring periodical follow-up and revision.

This fact book has three parts. Part one contains detailed information about the characteristics of population and its projected annual growth upto the year 2011 and the composition of workforce in the State. Part two contains statistics relating to employment pattern in public and private sector. It also gives an account of distribution and number of applicants on Live registers of employment exchanges and educational status of job-seekers; Part three gives information on education and training facilities in the State viz. number of institutions, teachers, enrolment, intake and outturn etc. in the state.

The present publication contains not only upto dated information but also more extensive data systematically arranged. It is hoped that this publication will be found useful by various departments of the State Government as well as those who are engaged in manpower planning. I would welcome suggestions so as to make the future issues of the publications more and more helpful for Government Institutions and the research workers in their assignments.

I am grateful for the co-operation rendered by all the concerned departments for making available the requisite data to bring out this publication. I also acknowledge the hard work done by the Officers and staff of Manpower and Employment Division of the Planning Department, Himachal Pradesh.

Dated Shimla-2, the June, 2006.

(D.K.Sharma)
Pr. Advisor (Planning)
Himachal Pradesh.

CONTENTS

I. INTRODUCTION	7-14
------------------------	-------------

TABLE NO.	TITLE	PAGE
PART - I : POPULATION AND WORK FORCE:		
1.1	Population and Decennial Growth Rate 1901-2001 of H.P.	15
1.2	Comparative Picture of Population in various States/ U.Ts-2001	16
1.3	Gross State Domestic Product of Himachal Pradesh by Industry of Origin at constant Prices	17
1.4	Gross State Domestic Product of Himachal Pradesh by Industry of Origin at Current Prices	18
1.5	District-wise Area, Population and Density of Population of Himachal Pradesh according to 1991 & 2001 Census	19
1.6	District-wise Distribution of Population by Sex 1981-2001 of Himachal Pradesh	20
1.7	Population of Himachal Pradesh by Sex and Age Group-wise 1991-2001.	20
1.8	Population of Himachal Pradesh by Sex and Quinquennial Age Groups as on 31st March,1991 & 2001 (Rural & Urban).	21
1.9	Projected Year-Wise Population of Himachal Pradesh by Sex 2001-2011.	22
1.10	Projected Quinquennial Population ('00) of Himachal Pradesh ,Separately for Rural & Urban Area 2001-2011.	22
1.11	District-wise Total Scheduled Castes and Scheduled Tribes in Himachal Pradesh - 1991 and 2001 Census.	23-24
1.12	Population of Workers and Non-workers to Total Population in Rural and Urban Areas.(1991 & 2001 census)	25
1.13	Total Main Working Population by Industrial Category and Sex (1991 and 2001) of Himachal Pradesh.	26
1.14	Main Working Population by Industrial Category and Sex (Rural) 1991 and 2001 of Himachal Pradesh.	27
1.15	Main Working Population by Industrial Category and Sex (Urban) 1991 and 2001 of Himachal Pradesh.	28
1.16	District-wise Distribution of Working Population by Industrial Categories - 1991 Census (Main Workers).	29
1.17	District-Wise Distribution of Working Population by Industrial Categories-2001 Census(Main + Marginal workers).	30
1.18	Distribution of Workers by Districts for 1991 and 2001 in Himachal Pradesh-Sex-Wise and Area-Wise Classification.	31-32
1.19	District-wise, Area-Wise and Sex-Wise Percentage of Main and Marginal Workers to Total Workers as per 2001 Census .	33-34

TABLE NO.	TITLE	PAGE
1.20	Work Participation Rates by districts in Himachal Pradesh, 1991-2001 Census.	35
1.21	Work Participation Rates by States and Union Territories According to 1981, 1991 and 2001 Census.	35-36
PART - II : EMPLOYMENT AND UNEMPLOYMENT		
2.1	District-wise Distribution of Total Registered Working Factories and Average Daily Employment (1999-2004)	37
2.2	District-wise Distribution of Total Registered Working Factories and Average Daily Employment in Public Sector in Himachal Pradesh (1999-2004).	38
2.3	District-wise Distribution of Total Registered Working Factories and Average Daily Employment in Private Sector in Himachal Pradesh(1999-2004)	39
2.4	Employment in Establishments (Covered under E.M.I) by Industry Divisions in Public Sector in Himachal Pradesh (1994-2004)	40
2.5	Employment in Establishments (covered under E.M.I) by Industry Divisions in Private Sector in Himachal Pradesh.(1994-2004)	41
2.6	Employment in Establishments (covered under E.M.I) by Industry Divisions in (Public and Private Sector) in Himachal Pradesh.(1994-2004)	42
2.7	Growth Trend of Employment in the Organised Sector According to the E.M.I.Data (1994-2004)	43
2.8	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,1996.	44-45
2.9	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,1997.	46-47
2.10	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,1998.	48-49
2.11	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,1999.	50-51
2.12	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,2000.	52-53
2.13	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,2001.	54-55
2.14	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,2002.	56-57
2.15	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,2003.	58-59
2.16	District-wise Employment in Establishments (covered under EMI) By Industry Divisions in Himachal Pradesh as on 31 st March,2004.	60.61

TABLE NO.	TITLE	PAGE
2.17	Growth Trend Of Employment in Different Bodies of Public Sector according to the data for the year 1994 to 2004.	62
2.18	District-wise Employment in Public Sectors in H.P.(1996 to 2004)	63-70
2.19	Number of Applicants on Live Register of Employment Exchanges Placement and Registration in Himachal Pradesh.(1994-2004)	71
2.20	Year-wise Number of Applicants on Live Register According to Educational Categories in Himachal Pradesh.(1994-2004)	72
2.21	Employment Exchange-Wise Number of Applicants on live Register According to Educational Categories in Himachal Pradesh as on 31 st December,2004.	72
2.22	Occupational Distribution Of Applicants on Live Register of Employment Exchanges in Himachal Pradesh.(1994-2004)	73
2.23	Growth Trend of Vacancies Notified and Filled According to Data for the Years 1994-2004 (Public sector)	73
2.24	Growth Trend of Vacancies Notified and Filled According to Data for the Years 1994-2004 (Private sector)	74
2.25	Number of Total Educated and Uneducated Job-Seekers according to their Educational Status in Himachal Pradesh for the Year 1994-2004.	74
2.26	District-wise Number of Total Educated and Un-Educated job seekers in Himachal Pradesh (1999-2004)	75-80
2.27	Per 1000 Distribution of Usually Employed Persons by Status of Employment, Workforce for H.P(Central sample) Based on 55 th round of N.S.S.O	81
2.28	Education Specific Worker Population Ratio for persons of age 15 years and above according to Usual Principal Status ,Employed (Work Force)for H.P. Based on 55 th round of NSS Central Sample.	81
PART-III : EDUCATION AND TRAINING		
3.1	Literacy in India and Himachal Pradesh (1901-2001)	82
3.2	State-Wise Literacy Rate by Sex 2001.	83
3.3	District-Wise Population of Literates By Sex in Himachal Pradesh-2001.	84
3.4	District-Wise Distribution of Primary Schools in Himachal Pradesh (1994-95 to 2004-05).	85
3.5	Status of Enrolment in Primary, Middle and Secondary Institutions-(1994-95 to 2004-05).	86
3.6	Enrolment of Students as Percentage to Total Population in the age group of (6-11) (1994-95 to 2004-05).	86
3.7	Trained and Untrained Teachers in Educational Institutions of Himachal Pradesh by type of Institution and sex (1996-97 to 2004-05)	87-88

TABLE NO.	TITLE	PAGE
3.8	No. of Students Appeared and Passed in High/Hr.Sec. School & Plus Two Examination in Himachal Pradesh.(1994-95 to 2004-05)	89
3.9	Sanctioned Intakes, Actual Intakes and Outturn of B.Ed Degree Holders in Himachal Pradesh.(1994-95 to 2004-05)	89
3.10	Outturn of Teacher Training Certificate Holders in Himachal Pradesh.(1994-95 to 2004-05)	90
3.11	Number of Arts, Science and Commerce Colleges/ Number of Teachers and Enrolment in Himachal Pradesh.(1994-95 to 2004-05)	90
3.12	District wise Number of Arts, Science and Commerce Colleges/Teachers and Enrolment in Himachal Pradesh.(1997-98 to 2004-05)	91-92
3.13	Outturn of B.A, B.Sc & B.Com Degree Holders in Himachal Pradesh.(1994-95 to 2004-05).	92
3.14	Outturn of M.A.,M.Sc. & M.Com Degree Holders in Himachal Pradesh. (1994-95 to 2004-05).	93
3.15	Intake Capacity and Enrolment in Graduate Courses in Engineering College in Hamirpur, Himachal Pradesh (1994-95 to 2005-06).	93
3.16	Intake and Outturn of Engineering Graduates -(Branch-Wise)(1994-95 to 2005-06)	94
3.17	Intake Capacity and Enrolment in Diploma Courses in Govt. Polytechnics in Himachal Pradesh. (1998-99 to 2004-05)-Institution-wise Details	94
3.18	Year-Wise Intake, Out Turn and Dropouts of Engineering Diploma Holders in Himachal Pradesh-(1998-99 to 2004-05)	95
3.19	Intake Capacity and Enrolment in Diploma Courses in Women Polytechnic College Kandaghat, District Solan, Himachal Pradesh (1994-95 to 2004-05).	95
3.20	Intake and Outturn from Women's Polytechnic College Kandaghat, District Solan, Himachal Pradesh.(1994-95 to 2004-05).	96
3.21	Year-Wise and Trade-wise Intake and Out-turn under Non-Engineering Trades in Himachal Pradesh (1994-95 to 2004-05)	96-97
3.22	Year-Wise and Trade-wise Intake and Out-turn under Engineering Trades in Himachal Pradesh (1998-99 to 2004-05)	98-100
3.23	Year-Wise Enrolment and Out-turn under BAMS in Ayurvedic College Paprola in Himachal Pradesh (1994-95 to 2004-05)	101
3.24	Year-Wise detail of Intake and Out-turn under different courses from Agriculture University, Palampur, Himachal Pradesh. (1994-95 to 2004-05)	102-103
3.25	Year-wise details of Intake and Out-turn under different courses from Horticulture and Forestry University in Himachal Pradesh. (1994-95 to 2005-06).	104

INTRODUCTION

Manpower and Employment Planning is an integral part of development planning. It has come to be recognised in India as one of the adjuncts of socio-economic planning since the early years of planning era. The need for integrating the manpower planning with educational planning and planning for economic development is being increasingly felt particularly in the context of current educated unemployment. Situational analysis of the problem of unemployment is reflected in our development plans and generation of employment opportunities has been one of the main objectives of the development plans. It is also now recognised that such integrated approach to planning should be attempted at a reasonable disaggregated level to ensure proper utilisation of human resources. In view of this it has become imperative to build-up a manpower information system at State level so as to cover various aspects of technical and educated manpower. Keeping in view the importance of this information system, Manpower Division of Planning Deptt., H.P. has brought out a comprehensive compendium of manpower information which is eighth in the series of "Fact Book on Manpower".

This publication consists of three broad sections viz. Population and Work Force; Employment and Unemployment; Education and Training with a summary of each part in the beginning.

I. POPULATION AND WORK FORCE

The population characteristics of Himachal Pradesh are highlighted in this section. It consists of first 21 tables giving a fair idea about the size, structure and growth of total working population disaggregated by area and sex. Table - 1.1 shows total population and its decennial growth rate. In order to give some time series perspective, data has been given from 1901 to 2001. The total population of Himachal Pradesh in 1901 was 19,20,294 which came down to 18,96,944 in 1911. This is the only decade in which a negative growth rate of (-) 1.22% was recorded. The density of population during this period remained 34 persons per Sq. Km. Since 1911, there has been a continuous increase in the population which increased to 51,70,877 in 1991 with 20.79% decennial growth rate and density of population was 93 whereas for 2001 census, the population was recorded as 60,77,900 with density of population as 109 persons per Sq. Km. The decennial Growth rate has declined to 17.54 %. This, in fact, is an encouraging trend.

Table 1.2 shows the comparative picture of population in various small States and Union Territories. The population of the State constitutes 0.59% of India's population and ranks 21st amongst all States and Union Territories of the country. The position of sex ratio in the State in 2001 census is 968 females, comparatively better than the sex ratio of 933 females in the country. However, in Himachal Pradesh sex ratio has registered a decline. It has come down from 976 to 968 which has attracted the attention of the policy makers. The density of population in the State of Himachal Pradesh is quite low i.e; 109 persons per square Km. compared with all India average of 324 persons per Sq.Km.

Most often, manpower planners have to refer to the structure and level of development of State economy as reflected in the state domestic product and its sectoral distribution. SDP which is the most appropriate composite economic indicator for measuring the

economic growth is shown in table 1.3 and 1.4 both at current and constant prices . SDP which was recorded Rs. 5825.03 crore in 1994-95 at current prices has been gradually increasing during subsequent years. It went upto Rs. 14968.64, crore in 2000-01, Rs. 16075.40 crore in 2002-03 and Rs.17938.33 crore in 2003-04. A fluctuating trend was witnessed in growth rate of SDP at constant prices. While registering a gradual increase from 1994-95 to 2003-04 SDP increased from Rs. 5243.93 crore to Rs. 9163.59 crore. The growth rate fluctuated between 4.5 to 9.6 percent during 1994-95 to 2003-04. Whereas, the highest growth rate at constant prices was observed during 1994-95 i.e; 9.6 percent, during 2003-04 it was 8.1 percent.

The demographic features of the State are given in Table 1.5 to 1.11 showing district-wise distribution of area, population and density of population. Distt.-wise actual as well as projected population by Sex, Quinquennial age groups and that of scheduled castes and scheduled tribes has also been shown in these tables which are self explanatory and need no further elaboration.

Table 1.12 shows percentage of workers, marginal workers and non workers to total population over the decade 1991 to 2001. Though there has been substantial increase in main workers as there has been in total population, percentage of main workers to total population has declined from 34.41 percent in 1991 to 32.31 percent in 2001. Similarly, marginal workers have also increased in the decade under review whereas non-workers have declined to 50.76% from 57.17% over the decade under review. Table 1.13 shows the working population by Industrial Category and Sex. During the decade from 1991 to 2001 there has been a substantial increase in working population which has gone-up to 29,92461 during the decade.

Since Himachal Pradesh is predominantly an agricultural State, out of the total working population, 20,49,041 are engaged in agriculture as cultivators and agriculture labourers and rest are engaged in other economic activities. As is evident from Table-1.14 and 1.15 the predominance of agriculture sector in absorbing the work force is further explained by the fact that during 1991 census out of the total working force, 16,29,125 were recorded as engaged in rural areas whereas urban areas had a work force of 1,49,975 only in 1991 whereas in 2001, it was 27,72,351 in rural areas and 2,20,110 in urban areas.

Table 1.16 and 1.17 shows the comparative picture of 1991 and 2001 and give a detailed account of district-wise distribution of labour force by industrial categories. Table 1.18 depicts distribution of workers by districts for 1991 and 2001-sex-wise and Area-wise classification in Himachal Pradesh. Table 1.19 depicts percentage district-wise, area-wise and Sex-wise percentage of main and marginal workers to total workers as per 2001 census which in itself is lucid and self explanatory.

Table 1.20, depicts the decadal changes in the work participation rates. The overall district-wise and the sex-wise picture reveals the increase in the work participation rate.

Table 1.21 shows the Work Participation Rates by States and Union Territories according to 1981, 1991 and 2001 Census. The data reveals an increasing trend in work participation rate from 33.45 in 1981 and 37.46 in 1991 to 39.26 in 2001 for all India and 42.40, 42.82 and 49.30, respectively, for Himachal Pradesh which is more than the all- India Work participation rate in all the three decades.

II. EMPLOYMENT AND UNEMPLOYMENT

One of the principal objectives of economic planning is the progressive reduction of unemployment. The rationale behind the growth of economy is not only to increase production but also expand the capacity for absorbing the backlog of unemployment and disguised unemployment. The solution of the problem of unemployment and poverty has to be found through a high rate of overall economic growth.

While formulating Development Plan, employment and manpower planning has to be viewed as the basic approach to tackle the Socio-economic problems. The task is one of adopting a suitable structure of investment and production, appropriate types of technology and mix of production technique and organisational support which would help to promote growth in productive employment. With this objective in view, preparation of a suitable data base has become imperative for the use of Manpower Planners.

Whereas the previous section provides the work status of the population as recorded by the census, the present section intends to throw light on the employment status of the population as shown by Employment Market Information collected by Employment Exchanges, Annual Survey of industries conducted by CSO (Industrial Wing) and Labour Force Surveys conducted by the National Sample Survey Organisation (NSSO) every five years. This is more or less an information on the organised sector of the economy covering factories and registered units of production. The unemployment data is based upon both the live registers of the employment exchanges and NSS.

Though Himachal Pradesh is predominantly an agricultural State having a comparatively weak industrial base, yet there has been a gradual growth in number of industries/factories being established and in the number of workers being employed in these factories for the last few years. This is evident from table-2.1 which shows that during the year 1999 there were 1855 registered factories employing 72,179 workers in the State. This number in 2004 had gone-up to 2309 factories and 93327 workers. In the intervening years also there has been a gradual increase in both factories as well as workers in them.

Table 2.4 to 2.6 depicts an erratic trend in employment in establishments (covered under E.M.I)for the period ending 31stMarch 1994 to 31st March 2004, both in public and private sectors.

The overall growth trend of employment in the organised sector remained erratic. The highest annual growth of 4.29 % was observed during the year 2000.(table 2.7)

The district-wise and industry-wise employment for the year 1996 to 2004 is given under tables 2.8 to 2.16. The public sector, community social and personal services sector is providing employment to the largest extent whereas the contribution of mining and quarrying sector is the lowest. The total employment in all industry divisions increased from 291921 to 304925 during the period March, 1996 to March, 2004.

Table 2.17 depicts the year-wise total employment in the public sector at different levels in the State viz Central Govt.Sector, State Govt. Sector, Local Bodies and Quasi Govt.Sector. During the period 1994-2004 the annual growth trend of employment remained erratic.

The district-wise details of employment in the Public sector from the year 1996-2004 are given in table-2.18. The district -wise growth trend during the period remained erratic in Bilaspur, Hamirpur, Kangra, Kinnaur, Mandi, Shimla and Una districts. Lahaul & Spiti district observed the constant trend during the year 1996-99 and 2000-04. It was only in Sirmaur, Kullu and Solan districts that the overall growth of employment witnessed an increasing trend.

Table 2.19 gives an account of the year-wise trend (from 1994 to 2004)of applicants on live register, number of vacancies notified and number of candidates placed etc.

Table 2.20 depicts the year-wise details (from 1994 to 2004) of the number of candidates registered in the Employment Exchanges according to their educational category. The year-wise growth of applicants is showing an increasing trend under category matric and above, below matric /literate, postgraduates and graduates categories whereas illiterates are showing a decreasing trend .

The Employment Exchange-wise data of applicants according to educational categories as on 31st December,2004 has been given in table 2.21 . There was maximum registration under categories Matric and above whereas the registration of illiterates were minimum in the employment exchanges of Himachal Pradesh.

Table 2.22 highlights the occupational distribution of applicants registered for different trades according to their educational qualification on Live Registers of Employment Exchanges since 1994 to 2004.Different occupations for which the registrations made in Employment Exchanges are categories as Professional and Technical, Administrative Executive and Managerial, Clerical and Allied works, Transportation and Commerce, Craftsmen, other skilled workers and unskilled workers. It is observed that out of total job seekers registered in Employment Exchanges majority of them are usually unskilled workers.

The year-wise details of vacancies notified and filled in the Public and Private Sectors are given under Table 2.23 and 2.24. The maximum vacancies i.e, 5927 were filled during the year 1995 and during the year 2003 as many as 1299 vacancies were filled up which are at the minimum side in the public sector. Similarly, for the Private sector, maximum vacancies 5171 were filled up during the year 1999 and minimum vacancies i.e, 113 were filled during the year 1994.

Table-2.25 depicts the year-wise magnitude of unemployment with regard to educated and uneducated job seekers during the years 1994 to 2004. It is seen that every successive year is witnessing continuous multiplication in number of unemployed persons except during the year 2004. Unemployment situation is quite conspicuous in the comparatively over populated districts like Kangra, Shimla and Mandi for obvious reasons. The educational category-wise position of unemployed persons is shown in detail in table 2.26.

Based on 55th round of the National Sample Survey, the distribution of usually employed persons by their employment status is depicted under Table-2.27. In the rural areas majority of the persons under both the status groups i.e Principal Status and Principal Subsidiary Status are self employed and a very small number is employed as regular and casual. But in the urban areas, the regular employment is on the top followed by self employment and casual employment. Education specific worker population ratio for persons of age 15 years and above according to Usual Principal Status in H.P. is depicted in Table 2.28.

III. EDUCATION AND TRAINING

With a view to presenting fair picture of the pattern and the varieties of education and training facilities available in Himachal Pradesh, this section includes selected tables. Efforts have been made to cover not only technical education but also general school, college and university education. Attempt has also been made to provide information on sanctioned intake capacity, actual intake/admission and outturn of all the education and training institutes with a view to helping an educational planner to have an idea about the nature and extent of wastage in the field of education existing in the State and also to prepare estimates of supply of educated and technical manpower over a certain period of time. For supply projections as well as for giving historical perspective to the data it has been ensured that educational tables contain information for at least 5 years.

Himachal Pradesh had tremendous strides in the field of literacy during the past decade. Literacy percentage which was recorded by the census of 1991 as 63.86% has increased to 76.50% in 2001. Table 3.1 reveals that percentage of literates is higher in Himachal Pradesh as compared to All India level. In the Inter-State comparison of literacy rate the State occupies the seventh position (Table 3.2) District-wise position of literates in H.P. is given in detail in table-3.3. Hamirpur district has the highest percentage of literacy i.e, 82.5 followed by Una, Kangra and Shimla districts. The lowest literacy was observed in Chamba district. District-wise distribution of primary schools in Himachal Pradesh is depicted in table 3.4. In 1994-95 total number of Primary Schools in Himachal was 7693 which went upto 10613 in 2004-05.

Keeping in view the upper and lower age limits required for each standard in the school the total number of students enrolled have been divided into three broad groups viz. Primary Enrolment which has the students of age 6-10 years, Middle Enrolment which has the students who fall within the age of 11-13 years, and Secondary Enrolment within those of 14-16 years of age. The progress of enrolment in Primary, Middle and Secondary institutions are given in detail under table - 3.5.

During the year 1994-95 the number of students enrolled in class I-V were 7.15 lakhs which included 3.74 lakh boys and 3.41 lakh girls. This figure in primary enrolment decreased to 5.67 lakh in 2004-05 (table-3.6) This is a function of lowering of birth rate and decline in population growth. The enrolment rates are above 100% in this group now.

Percentage of total enrolment in the school to total population in the age group of (6-11) was 96.62 in 1994-95 which declined mildly to 96.08 in 1999-2000 and during the years 2001-02, 2003-04 and 2004-05, it was 100 percent.

In 1996-97, there were 50917 teachers teaching in Primary, Middle, High and Higher Secondary Schools in Himachal Pradesh. Out of which 32258 were male and 18659 were female. Number of trained teachers were 36622 only which included 23393 male and 13229 female. In 2001-02, this number increased to 62576 out of which 38928 were male and 23648 were female. Sex-wise distribution of trained and untrained teachers is given in detail in table 3.7

Table 3.8 gives number of students appeared and passed in High /Hr. Sec. School and Senior Secondary Schools in H.P. In the year 1994-95, in high/Hr.Sec.Examination, 100563 pupils appeared out of which 39784 were declared as pass. Also 75797 students appeared in 10+2 examination in the same year out of which 23342 were declared successful. In 2004-05, students who appeared in High/Higher Secondary Examination were 131815 and 71972, respectively, whereas the No. of those who cleared these examinations were 82814 and 46576 respectively.

Table-3.9 gives an account of the sanctioned intake, actual intake and outturn of B.Ed. degree holders in H.P. for a period of 1994-95 to 2003-04. In 1994-95 only 325 candidates were enrolled for B.Ed. out of which 295 were declared successful which included 237 male and 58 female. In 2003-04, 3060 were enrolled and 2966 declared successful which included 1670 male and 1296 female.

Table-3.10 gives an account that in 1994-95 there were 6 JBT and one Teacher Training Certificate School with an intake of 25 candidates out of which 23 were declared successful. All this intake and outturn were of females only. In 2000-01 though the number of training schools increased to 12 but intake and out-turn of female candidates was only 28 and 27. Whereas during the years 2002-03 to 2004-05, the actual intake again came down to 25. These training courses were designed for females only.

Table 3.11 depicts that in 1994-95 there were 52 colleges of Arts, Science and Commerce with a stock of 1298 teachers. The total number of students enrolled in them were 50062. In 2004-05 number of the colleges increased to 69 and number of teachers and taughts went-up to 1833 and 82288 respectively. District-wise number of arts, science and commerce colleges, and the number of teachers and enrolment in H.P is depicted in table 3.12.

In 1994-95 the out-turn of degree holders of BA, B.Sc. and B.Com. was 6992, 2003 and 707, respectively, which went up to 20948, 3463 and 1843, respectively, in the year 2004-05. During this period, erratic growth trend was observed under all the categories (Table-3.13) Under the postgraduate courses of Arts, Science and Commerce, out-turn of degree holders in 1994-95 was 2561, 271 and 1210, respectively, which went upto 6710, 464 and 1272, respectively, in the year 2004-05 (Table-3.14)

There was only one Regional Engineering College at Hamirpur which started functioning from the year 1986-87. Before this, the State Government used to sponsor the candidates to the engineering institutions situated in other States. In the year 1994-95, 192 candidates in different trades were enrolled in this college. This strength in 2001-02 went up to 230. Again in 2003-04, the enrolment decreased to 218 and it increased to 288 during the year 2005-06 in the trades of civil, Electrical, Electronic, Computer Engineering, Mechanical Engineering and Architect at this institute. (Table 3.15) This is now a National Institute of

Technology. The State has private institutions of higher learning in engineering for which the data is to be gathered and included in the next version of the fact book.

As regards out-turn of engineering graduates from this college, during the year,2004-05 ,37 Civil and 44 electronics, 49 electrical 30 computer, and 43 mechanical graduates passed out their degrees.(Table-3.16)

In Himachal Pradesh there are at present six Government Polytechnic Institutions functioning. These are located each at Sunder Nagar, Hamirpur, Rohroo, Kandaghat Gagret and Kangra and the intake capacity and enrolment of these institutions is given under table 3.17.

Table-3.18 gives Year-wise Intake, Outturn and Dropouts of Engineering Diploma Holders in H.P from 1994-95 to 2004-05.

Table-3.19 depicts Intake Capacity and Enrolment in Diploma courses in Women's Polytechnic College Kandaghat,District Solan from 1994-95 to 2004-05 whereas dropout and Outturn is given in Table-3.20.The total intake capacity and enrolment during 1994-95 was 75 and 166 respectively whereas during 2004-05 the intake capacity increased to 150. During 1994-95, enrolment capacity, dropouts and outturn of Women's Polytechnic College Kandaghat was 166, 16 and 33 respectively. Whereas during 2004-05, it increased to 372, 8 and 80 respectively.

Trade-wise enrolment, dropout and outturn under non-engineering and engineering trades in H.P during the year 1994-95 to 2004-05 is given in table 3.21 and 3.22.

Himachal Pradesh has one Ayurvedic college at Paprola in District Kangra which produces BAMS, GAMS and Ayurvedacharyas. Details of total enrolment, dropout and outturn is given in table 3.23.

Himachal Pradesh has one agriculture and one horticulture university at Palampur and Solan, respectively. Actual intake and outturn of Agricultural Graduates and Postgraduates produced by HP Krishi Vishwa Vidyalya Palampur is given in detail in Table-3.24. In 2004-05, the enrolment of candidates in B.Sc. (Agriculture) which is a four year degree course was 169,in M.Sc.83 and in Ph.D was 52 with an outturn 29,37 and 7 respectively.In Veterinary (Bsc),198 candidates were enrolled and the outturn was 40. Under Msc., 34 was the enrolment and outturn was 8.Whereas in Ph.D. only 5 candidates were enrolled. Similarly, under Bsc. Home Science and Basic Science,37,158 respectively were enrolled whereas the outturn was 9 and 47 respectively. Under Msc., 21 and 29 students were enrolled, out of which 7 students under each category have passed out and under Phd. Home Science, 5 candidates were enrolled and only 1 candidate was successful during the year 2004-05.

In Horticulture and Forestry University in H.P.in 2005-06, enrolment in B.Sc., M.Sc., Ph.D.(Hort.) was 54, 45 and Nil, respectively .While in Forestry 29,19 and Nil students were enrolled in B.Sc.,M.SC.and Ph.D respectively. This is given in detail in table - 3.25

TABLE- 1.1.

Population and Decennial Growth Rate 1901-2001 of Himachal Pradesh

Year	Population	Decennial %age Variation	Density per Sq. K.M.
